

Vlado KOVAČEVIĆ
(Croatia)

E-mail: vlado.kovacevic@pfos.hr

Full professor of „Cereals“ on Faculty of Agriculture, University J. J. Strossmayer in Osijek. Scientific activities are in connection with testing of main field crops to different types of abiotic stresses, with emphasis on maize response to drought and acid soil stress, improvement of soil properties and field crop yields and quality, as affected by liming and ameliorative phosphorus and potassium fertilization, as well. Until now, published with coworkers more than 40 papers in Current Contents – cited journal and more than 300 papers in the other journals and proceedings, mainly for international scientific meetings. Decorated (1997) from President of Croatia by Croatian medal “Red Danice hrvatske with Ruder Boskovic image“ and rewarded by „State prize for Science“ (1998) from Croatian Parliament.
